

BMW i3 Electric Car driving range 20% more

Customer	The Austrian Federal Office for Agriculture, Forestry, Environment, and Water Management
Vehicle	BMW i3 (2013) Electric Car
Test Period	May – September 2015
Report Date	November 9 2015
Products in Action	Carbooster 1000 series 1 x Power Booster PB 1000 + Engine Booster EBD 1000
Driving Range before	100 km
Driving Range after	120 km
Increase	20.0 %

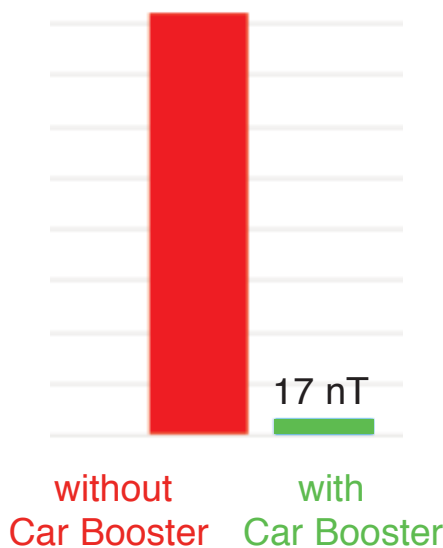

In addition to the improvement of the driving range the magnetic field and electromagnetic pollution were also tested.

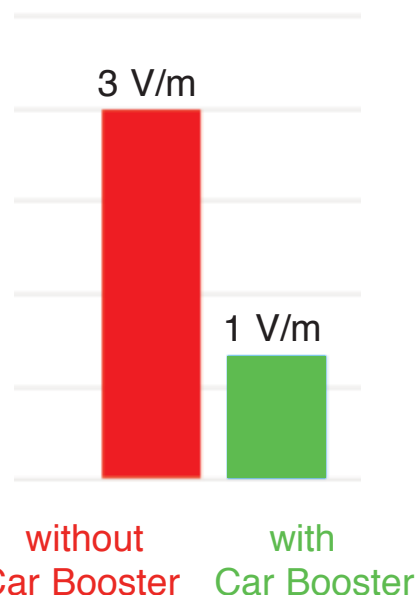

The Magnetic Field showed 410 nT was reduced by 96% down to 17 nT. (recommended exposure limit AC Magnetic Field preferably below 20 nT)

The Electro Smog showed 3 V/m and was reduced by 66% down to 1 V/m. (recommended exposure limit AC Electric Field preferably below 1 V/m)

Magnetic Field
410 nT nano Tesla = 4 milliGauss

Electro Smog

Reduce your energy consumption, reduce cost, reduce harmful emission.
